

HYDRAULIC CYLINDERS

UNDERGROUND MINING EQUIPMENT

Premium replacement range for drilling, bolting, loading and underground mining machines.

APPLICATION REFERENCES

NORMET | SANDVIK | EPIROC / ATLAS COPCO

Brand names and part numbers are used only for product identification and application reference.

PRECISION • STRENGTH • RELIABILITY

BUILT FOR DEMANDING MINING DUTY

GEP supplies replacement hydraulic cylinders for underground mining equipment, covering drilling, bolting, loading, steering, lifting, feed and support functions. Our focus is dimensional interchangeability, robust construction and dependable service life.

DRILLING & BOLTING

Feed extension • Feed tilt • Feed swing • Bolting • Jack

LOADING & HAULAGE

Lift • Tilt • Bucket • Steering • Suspension

UNDERGROUND SUPPORT

Boom • Support leg • Hoist • Change-over • Telescopic feed

WHY GEP

- Application-based replacement range
- Technical documentation support
- Inspection and pressure-test support
- Export-ready packing and global supply

NORMET APPLICATION RANGE

Replacement hydraulic cylinders for underground mining equipment.
